D E N T A L & D E R M A L

With the ever changing Covid-19 situation and the advice of the chief medical officer, regrettably we will now no longer be practising any elective dentistry or routine recalls and clean visits.

This decision has been made after considerable thought and consideration of the current information that is regularly being presented to us. Our priorities are to protect our patients and our staff from unnecessary risk.

Please be assured that Dr Ish and the entire team at Totalcare are highly committed to delivering you the highest standard of care and that our services are still available to support all our existing clientele and our local community for any phone triage, dental emergencies and prescriptions.

We wish everyone and their families the opportunity to isolate and stay safe through this unprecedented time and we look forward to resuming normal activities sooner rather than later.

Sincerely the Team at Totalcare.
